## RELAX IN PEACE **FREE FROM** **Chaos**

Goldlounge is a unique lounge room crafted from wood-patterned aluminum profiles, combining elegance with functionality.

With its fully closable curtains, it can easily transform into a private room whenever needed, providing both privacy and protection from the sun.

The fixed aluminum sunshades located on the roof and head section create a comfortable shaded area.

The remaining three sides can optionally be equipped with curtains, or left open for a more spacious and stylish experience.

The cushions are made with waterproof, Belgian manufactured special fabric and filled with 22-density foam, offering a long-lasting and comfortable seating experience.

# Wood's WARMTH meets ALUMINIUM'S strenght

Goldlounge is a unique lounge room that you'll instantly admire and never want to give up. It not only protects you from the sun but also offers a smart curtain system that ensures your privacy whenever needed.

The sunshade curtains are secured to both the top and bottom pipe profiles, preventing them from flapping in the wind.

This design puts full control in your hands and ensures ease of use at all times.

\*Floor decking, sun breakers, cushions, and accessories are optional.

# Unique Look ELEGANCE & Style

Goldlounge looks like natural wood from the outside, but when you touch it, you feel the strength and durability of aluminum.

It does not rot, requires no painting or varnishing, and needs virtually no maintenance. It maintains its aesthetic appearance for years while offering high resistance against harsh outdoor elements.

All surfaces are finished with special wood-patterned film coatings manufactured in Italy, designed to reflect the realistic and natural texture of real wood.

# Long-lasting Protection

CLASS2 ELECTROSTATIC PRIMER PAINT

Our pergola is coated using a unique Class 2 electrostatic primer in our state-of-the-art painting facility.

Alcas Paint Factory explicitly produces this primer for Akzo Nobel and Jotun, adhering to Qualicoat standards, prior to the installation of the wood cladding.

With a 10-year guarantee, this Class 2 primer paint ensures exceptional durability against harsh weather conditions like sunlight, rain, snow, and wind erosion.

## BEST-SELLING **Wood Colors**

AVAILABLE STOCK COLORS

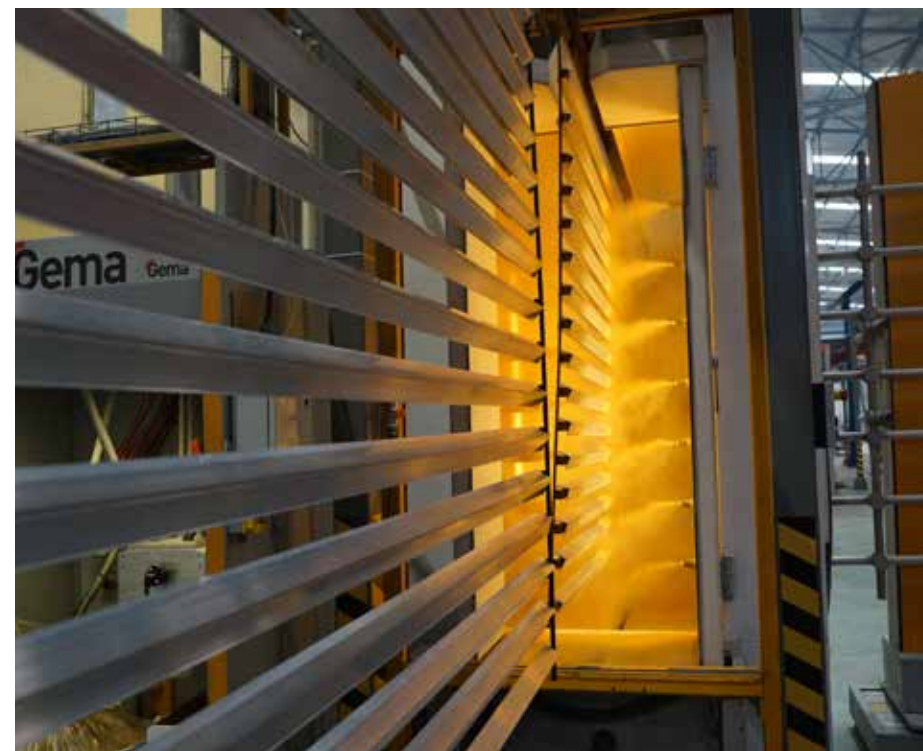

After applying electrostatic primer paint to the pergola profiles, they receive wood cladding at Alcas' film coating factory in Italy.

The factory utilizes weather-resistant film coils backed by a 10-year warranty.

For our inventory, we offer two color choices for the main body of the pergola and one color option for the ceiling slats. Additional colors may be available based on the quantity of the order.

You can explore more color options on our website:

# Cushion & Curtain Kit

CUSHIONS AND CURTAINS ARE OPTIONAL

We recommend that you carefully review the available option selections within the Goldlounge lounge system. According to your needs and preferences, you can add special cushions and curtain systems made with water-proof fabric sourced from Europe and 22-density foam. These high-quality options will enhance the comfort of your lounge while giving it a more elite and stylish design.

# Easy Assembly

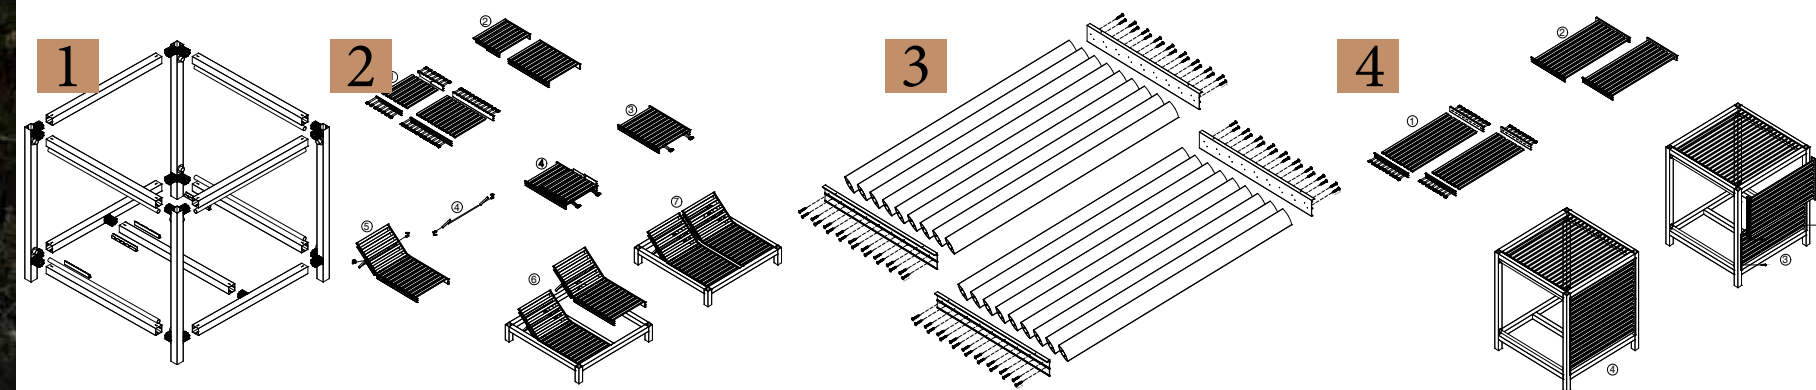

EASY INSTALLATION WITH 72 SCREWS

The Goldlounge system is delivered in a box package, fully ready for installation with all necessary connectors and a detailed assembly brochure.

It can be assembled in approximately 3 hours by just 3 people using only a drill. No technical knowledge or professional assistance is required.

The entire installation is completed with just 72 screws. Thanks to its easy assembly feature, you save both time and the cost of hiring professional installers.
